

SG 4/4

The compact SG 4/4 steam cleaner with powerful 4-bar steam pressure. With continuously variable steam volume control and VapoHydro function for perfect cleaning results without the use of chemicals.

1 2-tank system

- The fresh water tank can be continuously filled as the boiler and tank are separate.
- Because only part of the overall volume is heated at any one time, it takes very little time for a consistent steam pattern to form.

2 VapoHydro

- Thanks to VapoHydro, the steam level can be infinitely adjusted to the cleaning task.
- In addition to the steam pressure, the saturation can be infinitely adjusted from full steam to hot water.

3 Accessory storage compartment

- The integrated storage compartment enables the storage of a variety of accessories.
- Special small parts are always safely stored and do not get lost.

4 Hygienic cleaning

- Hygienic cleaning without the use of chemical substances.
- The avoidance of aggressive cleaning agents protects the operator and treated surfaces.

TECHNICAL DATA AND EQUIPMENT

SG 4/4

- 2-tank system
- Short heat-up time
 Pump for hot boiler filling

Technical data		
Order no.		1.092-104.0
